Forecast for Thursday 15 Jul 2021

Weather: Low cloud breaking up by mid-morning to leave much of the day dry with some good spells of sunshine, a little patchy low cloud across the west coast and Skye. Low cloud with a little rain or drizzle is expected to return to western Lochaber, Mull and Jura in the early evening, but staying fine elsewhere.

Chance of cloud free mountain/hill tops above 800m: 90%.

Visibility: Poor in areas of low cloud down to 550 metres at first, this clearing through the morning. Otherwise many ranges will have very good visibility for much of the day with summits clear for the afternoon. Low cloud down to 250 metres developing the far northwest in the evening.

Met Office Aberdeen Meteorologist's View
Be prepared for sunburn and dehydration on long hikes. Becoming very warm under sunny skies.

Forecast for Friday 16 Jul 2021
Weather: Low confidence for detail. A fair amount of low cloud expected with a little light drizzle along the west coast. However some cloud breaks are likely, these mainly across southern Kintyre, Arran and the more eastern Trossachs.

Maximum wind: Southwesterly gusts to 25 mph

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in extensive low cloud down to 400 metres across the north of the region. Low cloud more broken and prone to clearing across the south of the region.

Temperature: **Glens:** Plus 12, rising to 15 Celsius where it remains damp, but a warm 23 Celsius in sunshine.
At 800m: Plus 12 Celsius
Freezing level: Above summits
